H HOMEWARES

I-rewood's hardwood homewares are the ideal eco-friendly and unique gifts for both indoor and outdoor

Here's a guide to help you choose from a range of products and unique customization.

Click & follow us

1

Ulin (*Eusideroxylon zwageri*)

Species

Ulin is a remarkable wood. It's extremely slow growth rate at less than 0.5mm a year results in a highly dense wood ideal for exterior applications. Ulin is a rare tree native to Indonesia. At i-Rewood all our items come from Ulin certified 100% FSC to take care of our forests.

2

Indoor

All of our wood has been reclaimed or salvaged from ethical and legal sources. We take unused structures such as bridges, jetties and boats and turn them into beautiful homerwares.

Materials have been carefully selected to offer huge design freedom, with the ability to create a multitude of textural finishes such as Classic, Vintage, Exotic, plus bespoke size and finish options for endless creativity. Rest easy! Bring nature into your home.

3

Outdoor

When you are looking for wood for outdoor projects, it is crucial to find a material that is able to withstand for even extreme climates. Ulin is a naturally water resistant wood, anti-rot, anti-decay.

Moreover our wood is highly resistant to insect attacks and damage as Ulin is indigestible by a wide range of pests and insects (including termites), resulting in an effective barrier to attack.
